

Technocracy at Work

“The philosophical underpinnings of the **Trilateral Commision** have the appearance of being pro-Marxist and pro-Socialist, but only as a stepping stone leading to Brzenzinski’s Techetronic, or Technocratic, society.

They are solidly set against the concept of **nation-state** and in particular, the Constitution of the United States. This, **national sovereignty must be diminished** and then abolished altogether in order to make way for the **New International Economic Order** that will be governed by an **unelected global elite** with their self-created legal framework.

The American public has never, ever conceived that such forces would align themselves so successfully against freedom and liberty. Yet, the evidence is clear; steerage of America has long since fallen into the hands of an **actively hostile enemy** that intends to remove all vestiges of the very things that made us the greatest nation in the history of mankind.”

How are they controlling it? Fear, Terrorism, and Mass Surveillance:

Bottom Line: Satanic elites (Marxist-Communists) using NWO framework to kill off Christians, eliminate US Constitution, nation-states, and bring all in their NWO (GA guidestones). Remaining alive all controlled, surveilled, and slaves to the NWO.
