The conclusions are quite sobering.

<https://insulinresistance.org/index.php/jir/article/view/71>

Part 1

- In the non-elderly population, **the numbers needed to treat to prevent one COVID death run into the thousands.** Reanalysis of randomized control trial data from both Moderna and Pfizer reveals **one is more likely to suffer a serious adverse event from the COVID-19 vaccines than to be hospitalized with COVID-19.**
- Pharmacovigilance data, coupled with plausible biological mechanism of harm, is also deeply concerning, especially in relation to **cardiovascular safety, mirroring a potential signal from Pfizer's phase three trial.**
- **Conclusion: *It cannot be said that the consent to receive these agents was fully informed, as is required ethically and legally. A pause and reappraisal of global vaccination policies for COVID-19 is long overdue.***

Curing the pandemic of misinformation on COVID-19 mRNA vaccines through real evidence-based medicine

- Part 2

- *Aseem Malhotra* Journal of Insulin Resistance | Vol 5, No 1 | a72 | DOI: <https://doi.org/10.4102/jir.v5i1.72> |

Results: Underlying causes for this failure include **regulatory capture – guardians** that are supposed to protect the public are **in fact funded by the corporations that stand to gain from the sale of those medications**. A failure of public health messaging has also resulted in **wanton waste of resources** and a **missed opportunity to help individuals lead healthier lives with relatively simple – and low cost** – lifestyle changes.

Conclusion: *There is a strong scientific, ethical and moral case to be made that the current COVID vaccine administration **must stop** until all the raw data has been subjected to fully independent scrutiny. Looking to the future the **medical and public health professions must recognise these failings and eschew the tainted dollar of the medical-industrial complex**.* It will take a lot of time and effort to rebuild trust in these institutions, but the health – of both humanity and the medical profession – depends on it.

This May Become the ‘Dark Winter’ Biden Warned About

- Taken together [The Original Antigenic Sin – and- Frequent Boosting], we could well be facing the “dark winter” president Biden warned would befall the unvaccinated last year. **But it’ll be those with COVID booster and quadrivalent flu shots who will suffer the most. The rest of us will hopefully avoid problems provided we keep our immune systems strong.**

FDA Withholding Autopsy Results on People Who Died After Getting COVID-19 Vaccines

- The U.S. [Food and Drug Administration](#) (FDA) is refusing to release the results of autopsies conducted on people who died after getting COVID-19 vaccines.
- The FDA says it is barred from releasing medical files, but a drug safety advocate says that it could release the autopsies with personal information redacted.
- An FDA spokesperson noted that deaths following COVID-19 vaccination are rare, citing the number of reports made to VAERS.
- As of Sept. 14, **16,516** reports of death following COVID-19 vaccination have been reported. Approximately 616 million doses have been administered in the United States through September.
- The researchers noted that prior studies have found that adverse events reported to VAERS are an undercount of the true number of events. **[AND HIDES #s]**

Medical examiners were told to lie on death certificates

- In Massachusetts, the state Department of Public Health told medical examiners that if the person died with COVID, to list COVID as a cause of death, **even if COVID had nothing to do with the reason the person died.**
- This is a violation of federal law.
- **Why would a state department of public health instruct medical examiners to lie? Two reasons:**
 - To get federal funds for the state
 - To encourage people to get the shots

- **1,230,000 deaths USA** (rounded down & best case)
= **30k** listed x 41 underreport factor **High 3 million**
[not including the hidden case covered up by CDC, et al]
- **7.2 million hospitalized** by Vax **High 17 million**
- **2.3 million permanently disabled** by Vax **High 5.7 ml**
- **2.1 million myocarditis cases** (50% die w.i. 5 yr)
-Worst case high is over 5 million
- **98 times worse than 'the virus' for young adults**

- USA

KEY POINTS- 1

- “In a recent interview with GB news, Dr. Malhotra goes on to say:
- “When the vaccines were first released **we were told they were 95% effective against infection.**
- **This is not true. This is based on relative risk reduction. In absolute terms, they provided 0.84 percent protection which means only one in 119 people would be protected from infection.”**
