

Let It Shine

How to Be a Christmas Tree

(message inspired of Jesus in prayer)

As the world darkens in these days of the End, it becomes harder to live. People feel the stress, the pressure and the frustration in their lives. It is all magnified because of the darkness coming over all the world released by the enemy of your souls.

But that also means that My power is increasing as well as I do not let Satan have full control without a fight, without a light, **and without a presence of ME.**

You are My presence of Me, and when it is dark, a little light becomes more powerful. The darker the night, the brighter the light, as even a candle can light a whole room or be seen from a far distance.

Before decorating the Christmas tree, it is just a tree. It's nice and it smells good and brings a sense of cheer, for Christmas season means hope, light, goodness, and love. It's a little light.

But when you put on the lights and the decorations, that tree means so much more. It shines in the night, and if it is My tree, then it shines with joy, peace, and a love that others need. **My Christmas trees of light become the voice of God in the night.**

The only way to be that kind of shining tree is to make sure the lights are plugged in. You cannot shine without My power, My electricity flowing through you. Putting on the lights is the hardest part of decorating a tree, but the most important. (Like hiding the word in your heart)

You then flip the switch and all is changed. The whole room becomes cheerful, beautiful and flows with an aura of love power.

The other ornaments are nice and add to the beauty of the tree, like your gifts, talents or special anointing that I give you as you are

faithful to Me. I give you a fighting spirit, perseverance, gifts of the Spirit, prayer warrior, person of faith or joy and other talents as well.

But when the lights go on the whole world looks. When they light the Whitehouse Tree, the whole nation looks. When **you** plug into My power and get lit, all eyes will go on you, for they will see Me shining brightly in you. They will see a bright light in the dark that will touch their hearts. The only way to stay shining and to keep your lights on during the dark night, **is to stay plugged in.**

Keep that connection clean, clear of obstruction and strong so the world can see the beauties of heaven. As you put on your 'coat of the Holy Spirit', you will become possessed of Me. **You will SHINE the light of truth into the hearts of a loved starved world.**

As you decorate your **Christmas Tree** remember **Me.** Think of Me and what I have done for you. 'Put on your lights and decorations' to radiate My love and truth to others. The world needs you.

Be My Tree!
